

The graph consists of 40 nodes arranged in a complex, interconnected network. Nodes 1 through 20 are green circles, and nodes 21 through 40 are purple triangles. The nodes are connected by thin gray lines. A specific path is highlighted with thick red arrows, starting from node 27 and ending at node 21. The path follows the sequence: 27 → 29 → 28 → 8 → 10 → 12 → 15 → 17 → 16 → 21.
