

[illegible]

The figure shows a network graph with 40 nodes, labeled 1 through 40. The nodes are distributed across the frame, with some clusters. Nodes 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, and 40 are all present. The nodes are connected by thin grey lines representing edges. A specific path is highlighted with thick red arrows, starting from node 1 and ending at node 29.
